

Fortifying Structures . Defying the Elements

SERVICE PROPOSAL

PROJECTS

Downer

Contracted by Downer, we provided a tailored waterproofing solution for a live wet well at the Tasman District Council wastewater plant. Working in harnesses with pumps running, we applied a rapid-curing coating to seal leaks and restore the deteriorated walls. Completed safely and efficiently, the project exceeded expectations in both speed and quality.

Watercare

Watercare contacted us, we restored their 550m² head office roof, which suffered from leaks and a deteriorated membrane. Using Mapei's liquid membrane system, we delivered a seamless waterproofing solution, carefully working around HVAC units, piping, and cable trays. Completed to the highest standard, the project provided long-term protection, leaving Watercare highly satisfied.

Ports of Auckland

Engaged by Ports of Auckland, we installed a high-performance non-slip floor coating for their straddle carrier mechanic bays. Designed to withstand 60+ ton loads, the coating was applied over oil-contaminated surfaces within a strict 4-day deadline. Completed with new line markings, the result was durable, safe, and perfectly fit for purpose, ensuring seamless operations for the port.

Fulton Hogan

Through Fulton Hogan, we provided a clear, non-slip solution for the new Panmure Bridge walkway, preserving the natural timber aesthetic. The durable, UV-resistant coating exceeded AS/NZS 3661.1:1993 slip resistance standards while ensuring safe, unobstructed pedestrian flow. Both parties were pleased with the seamless, high-quality result.

ABOUT US

At Goliath Coatings, we specialise in delivering tailored solutions for Waterproofing, Protective Coatings, and Surface Preparation. Operating across New Zealand and South Africa, we bring years of expertise and a steadfast commitment to quality, ensuring every commercial and industrial project is handled with precision and care. Whether you're maintaining existing structures or embarking on a new build, Goliath Coatings is your trusted partner for excellence, earning us a solid reputation as an industry leader.

Our customer-focused approach and proven track record of success distinguish us in the field, earning us the trust of major clients like Downer, Watercare, Ports of Auckland, and Fulton Hogan by consistently delivering reliable, durable, and high-performance solutions.

Our passion for what we do drives us to stay at the forefront of innovation, solving challenges and ensuring your success with every project. When you partner with us, you'll experience the difference of working with a team that genuinely cares about your success.

WHAT WE OFFER

Sub-grade Waterproofing & Tanking Solutions:

- Foundations
- Underfloor
- Lift pits
- Basements
- Retaining walls

Floor Coatings & Systems:

- Epoxy Coatings
- Polyurethane (PU)
- Polyaspartic
- MMA (Methyl Methacrylate)
- Cementitious Urethane (CU)
- Decorative Coating Systems
- Anti-Static (ESD)
- Non-Slip

Façade Sealing & Coatings:

- Façade joint sealing
- Hydrophobic treatments
- Building façade coatings

Surface Preparation:

- Sandblasting
- Wet Blasting
- Dry Ice Blasting
- Soda Blasting
- Concrete Grinding
- Water Blasting
- Shot Blasting

Roof Waterproofing:

- Roof membranes (TPO, EPDM & Torch-On)
- Carpark Membranes
- Balcony Membranes

Fire Protection:

- Intumescent
- Cementitious

WHY PARTNER WITH US ?

- **RELIABILITY:**

We deliver projects on time and within budget, ensuring minimal disruptions to your operations.

- **EXPERTISE:**

Our highly trained team brings a wealth of knowledge and skill to every project.

- **QUALITY:**

We only use well-known, industry-leading brand-name products and proven techniques to guarantee long-lasting results.

- **METICULOUS:**

From consultation to completion, we focus on every aspect of your project to ensure superior outcomes.

- **SUSTAINABILITY:**

We prioritize eco-friendly practices, minimizing waste and using non-toxic materials wherever possible.
