

# SERVICE PROPOSAL

# PROJECTS

## **Downer (124m<sup>2</sup>)**

Contracted by Downer, we provided a tailored waterproofing solution for a live wet well at the Tasman District Council wastewater plant. Working in harnesses with pumps running, we applied a rapid-curing coating to seal leaks and restore the deteriorated walls. Completed safely and efficiently, the project exceeded expectations in both speed and quality.

## **Watercare (849m<sup>2</sup>)**

Watercare contacted us, we restored their 550m<sup>2</sup> head office roof, which suffered from leaks and a deteriorated membrane. Using Mapei's liquid membrane system, we delivered a seamless waterproofing solution, carefully working around HVAC units, piping, and cable trays. Completed to the highest standard, the project provided long-term protection, leaving Watercare highly satisfied.

## **Ports of Auckland (458m<sup>2</sup>)**

Engaged by Ports of Auckland, we installed a high-performance non-slip floor coating for their straddle carrier mechanic bays. Designed to withstand 60+ ton loads, the coating was applied over oil-contaminated surfaces within a strict 4-day deadline. Completed with new line markings, the result was durable, safe, and perfectly fit for purpose, ensuring seamless operations for the port.

## **Fulton Hogan (652m<sup>2</sup>)**

Through Fulton Hogan, we provided a clear, non-slip solution for the new Panmure Bridge walkway, preserving the natural timber aesthetic. The durable, UV-resistant coating exceeded AS/NZS 3661.1:1993 slip resistance standards while ensuring safe, unobstructed pedestrian flow. Both parties were pleased with the seamless, high-quality result.

# PROJECTS

## Blue Frog Warehouse (1,500 m<sup>2</sup>)

Engaged by Blue Frog Breakfast, we installed a certified food-grade epoxy system across 1,500 m<sup>2</sup> of warehouse flooring under a one-week program. Operating around production schedules, we completed surface prep, crack repairs, and rapid-cure coatings to deliver a hygienic, slip-resistant finish. Delivered safely and on time, the result exceeded expectations and delighted the client.

## ASB Tennis Courts (Over 500LM)

Engaged for ASB Tennis Courts at 1 Tennis Lane, Parnell after multiple unsuccessful waterproofing attempts by other contractors, we delivered the definitive fix: removing failed asphalt, tracing and stopping persistent leaks, and installing a suite of solutions—primarily torch-on membrane. Over 500 lineal metres of membrane were installed. Completed safely and efficiently, all leaks were rectified and the courts returned to service.

## Tuakau Council Pool (539m<sup>2</sup>)

During a spell of hot weather at Tuakau Council Pool, we revitalised a tired, flaking surface into a fresh, vibrant new finish. Goliath Coatings repaired leaks, sealed joints, and applied a durable new coating system across the 35m pool. With a tight reopening deadline, the project was completed on time and to a high standard—leaving the community back in the water and enjoying the summer.

## Huntly Aquatic Centre (654m<sup>2</sup>)

Goliath Coatings refurbished the Huntly Aquatic Centre main pool by sandblasting the failed coating back to a sound substrate across approximately 654 m<sup>2</sup>. We then uncovered major water ingress from an adjacent pool into the main pool, devised a waterproofing solution, and executed the repair to stop the leak. The project was finished with a new coating system for a clean, durable result.

# ABOUT US

At Goliath Coatings, we specialise in delivering tailored solutions for Waterproofing, Protective Coatings, and Surface Preparation. Operating across New Zealand and South Africa, we bring years of expertise and a steadfast commitment to quality, ensuring every commercial and industrial project is handled with precision and care. Whether you're maintaining existing structures or embarking on a new build, Goliath Coatings is your trusted partner for excellence, earning us a solid reputation as an industry leader.

Our customer-focused approach and proven track record of success distinguish us in the field, earning us the trust of major clients like Downer, Watercare, Ports of Auckland, and Fulton Hogan by consistently delivering reliable, durable, and high-performance solutions.

Our passion for what we do drives us to stay at the forefront of innovation, solving challenges and ensuring your success with every project. When you partner with us, you'll experience the difference of working with a team that genuinely cares about your success.

# WHAT WE OFFER

## Roof Waterproofing & Leak Repair:

- Roof membranes (TPO, EPDM & Torch-On)
- Roof painting & restoration
- Carpark waterproofing
- Balcony & deck waterproofing

## Basement & Foundation Waterproofing (Tanking):

- Basement waterproofing
- Foundation waterproofing
- Lift pit waterproofing
- Retaining wall waterproofing

## Floor Coatings & Systems:

- Epoxy coatings
- Polyaspartic
- Polyurethane (PU)
- Cementitious urethane (CU)
- Decorative coating systems
- Non-slip coatings
- Line marking

## Surface Preparation & Blasting:

- Sandblasting
- Shot blasting
- Soda blasting
- Wet blasting
- Dry ice blasting
- Water blasting
- Concrete grinding & polishing

## Façade & Exterior Wall Coatings:

- Exterior wall & façade coatings
- Façade joint sealing
- Hydrophobic (water-repellent) treatments
- Anti-graffiti coatings

# WHY PARTNER WITH US ?

- **RELIABILITY:** We deliver projects on time and within budget, ensuring minimal disruptions to your operations.
- **EXPERTISE:** Our highly trained team brings a wealth of knowledge and skill to every project.
- **QUALITY:** We only use well-known, industry-leading brand-name products and proven techniques to guarantee long-lasting results.
- **METICULOUS:** From consultation to completion, we focus on every aspect of your project to ensure superior outcomes.
- **SUSTAINABILITY:** We prioritize eco-friendly practices, minimizing waste and using non-toxic materials wherever possible.
